

Willaert Realty Ltd. Brokerage

I would like to thank you for taking the time to let me introduce myself and hope you find our service brochure useful by providing some background on what our firm T.L. Willaert Realty Ltd Brokerage can provide in terms of value and service.

The Ontario farming industry continues to play an important role in the overall economic engine of our province and more importantly continues to contribute to the social well being of millions of Canadians.

When I meet a farmer I get a sense of what the term "down to earth" really exemplifies. Having worked on a tobacco farm in my teen and young adult years I understand and can appreciate what sacrifices and hard work farmers of every generation have had to make to remain relative and successful over the years.

I believe, as I think most farmers do, that its not just about the financial gains of running a successful farming operation, but also, the way of life it affords the farming family and how that extends into the fabric of our communities.

We live in a fast pace and multimedia world today where technology seems to change minute by minute and its still amazes me after speaking with a farmer how they are able to bring back perspective and a relative calm to most, if not all, topics you want to discuss with them.

Our real estate brokerage would like to be an extension of your hard work and success. We have assembled a team of very qualified independent professionals who dedicate their time and hard work to help assist myself and our brokerage to get the expected results before, during and after the real estate transaction is complete.

T.L. Willaert Realty Ltd Brokerage has been providing its services to the Ontario farming community since 1993 and I hope to build upon their strong and long established relationships. I think you will find our services beneficial and provide options that are not only effective but affordable.

Effective results require effective solutions and I believe if given an opportunity our team can get the results you are looking for whether your selling or buying Ontario farmland.

Thank you once again for allowing me the opportunity to provide this information and remember.....we visit with our boots on!
